Chief Jason Puffett  
Genesee Fire Protection District

Subject: Support for the proposed evacuation road

To whom it may concern,

Evergreen Fire/Rescue is in support of the evacuation road the Genesee Fire Protection District has proposed for construction. Evergreen is also in an extreme wildfire threat environment and understands the need to safely and efficiently evacuate people. In the event of a wildfire or any other emergency incident, more than one route is very important.

Evergreen Fire/Rescue and Genesee Fire have mutual aid and auto aid agreements in place to support each other in the management of large scale incidents. This road would also allow access to each other's districts from a new and much needed road, reducing response times significantly.

Sincerely,

Michael Weege  
Fire Chief  
Evergreen Fire/Rescue
